Privacy Statement
APPLICATION PRIVACY STATEMENT
We respect your privacy. Therefore, we have developed a Privacy Statement (hereinafter referred to as "this statement") that covers how we collect, use, disclose, protect, store and transfer your personal data. Please take a moment to read and understand our privacy statement and let us know if you have any questions.
Personal data means any electronic or other information which alone or jointly with other information can be used to identify a natural person or make him/her identifiable. This statement explains how we process your personal data, but does not cover all processing scenarios as you will be informed in specific processing activity. Therefore, before using a specific product or service, it is recommended that you read the privacy notice or supplementary statement released by us for that product or service to understand how it processes your personal data.
This statement applies only to personal and home products, including computer applications, mobile services, software, toolkits, websites, and services that display or mention this statement.
This statement describes:
1. How We Collect and Use Your Personal Data
2. How We Use Cookies and Similar Technologies
3. How We Share Your Personal Data
4. How We Protect Your Personal Data
5. How You Can Manage Your Personal Data
6. How We Protect Children's Personal Data
7. Links to Third-Party Websites, Products, and Services
8. International Transfers of Your Personal Data
I. How We Collect and Use Your Personal Data
A. Personal Data Collected By Us
Before using products or services, you may need to provide personal data. You do not have to provide your personal data to us, but in some cases, the non-provision of certain personal data will cause the inability to provide you with some related products or services.
We will collect and use your personal data for the purposes stated in this statement. Here are some examples of personal data we may collect:
1. Information that we collect in your use of services
We will collect data about your device and how you and your device exchange information with our products and services. This type of information includes:
(1) Device and application information, such as the device name, device identification code (IMEI, ESN, MEID, and SN), device activation time, hardware model, OS version, application version, software identification code, and device and application settings (such as region, language, time zone, and font size).
(2) Mobile network information, such as the public land mobile network (PLMN) provider ID and Internet Protocol (IP) address.
(3) Log information. When you use services or view our content, we will automatically collect and log some information, such as the time of access, access count, IP address, and information about incidents (such as errors, crashes, restarts, and upgrades).
(4) Personal information. Such as name, mobile phone, ID card number, mail…
