Manager's Report 11/25

1. Thanks for the opportunity to attend the annual Washington State Community Airports Association (WSCAA) conference in Leavenworth last month. Invaluable gathering of small airport managers, the FAA and engineering firms, helpful presentations on relevant topics, worth the time!
2. Chip, along with several commissioners, will be attending the Washington Public Ports Association (WPPA) meeting in Bellevue [Dec 11-13](#),
3. PAPI - FAA Flight Check scrubbed on 11/14 by FAA for aircraft availability, told to expect a reschedule in the next 2-4 weeks, nothing scheduled yet
4. Roofing contractors contacted from the County Small Works Roster reference adding "ORCAS" to the biplane hangar roof, information only discussions, current tenants report no roof leaks,
5. Applied Pavement Technology (APTech) visited Tuesday, part of a 3 year cycle to update to WSDOT's airport pavement management system (APMS), conducted a pavement condition index (PCI) [evaluation of ORS](#), report to follow,
6. Eastside Hangar Drainage – Informal discussions with individual hangar owners continue...
7. EV Charger project Phase 1 installation (Port, OIHS and Exchange) continues, Port transformer for Lvl 3 ordered,
8. Final details being worked through with the FAA/ADO office and PAE reference our '25 CIP project.
